TCA DESCRIPTION

Themes and goals:	The overall idea of a contact seminar is to find partners with similar interests and develop ideas for KA1 and KA2 projects. The seminar will also give an opportunity to share experience and discover new approaches in the field of digitalization in adult education. In this seminar, the focus will be put on ideas how to develop the digital competences for staff in adult education. This can be realized by developing educational/ methodological and didactical concepts or courses for KA1. The seminar will offer the possibility to recognize and use synergies between KA2 and KA1.
Expected results:	With this contact seminar, we want to encourage cooperation among organizations in Europe for KA1 and KA 2 projects.
Additional information:	Digital knowledge will be more and more important for staff in adult education to meet the requirements of very diverse target groups. However, not everybody has the knowledge, skills and attitudes to be able to use digital technologies in a critical, collaborative and creative way in their daily work. Transnational collaboration, the exchange of innovative ideas and good practices between European educational institutions through Erasmus+ programme is an opportunity for tackling a variety of issues.
