TCA DESCRIPTION

Themes and goals:	A project incubator is a new approach to the traditional contact seminar with a greater focus on developing both the content and format of cooperation in the new project. The event would incorporate methods of co-creation and experimentation, as well as peer review of the project ideas and the plans. The themes are e.g. personalization, learning environments, new role of teachers and digitalization. The seminar will gather 70 professionals within vocational education from different European countries. This is a chance to create new partnerships and project ideas supported by National Agency staff. Participants are invited to share good practices from different countries, identify challenges and discuss possible solutions regarding the future of VET.
Expected results:	New project ideas for KA1 and KA2.
Additional information:	The event is not suitable to intermediary organisations.
