TCA DESCRIPTION

Themes and goals: This TCA is targeted at beneficiaries of Erasmus+ KA2 projects in the fields of Adult, VET and Schools who are currently carrying out or have already completed projects involving innovative teaching methods. Many Erasmus+ projects have a focus on designing new innovative curricula and educational methods. The objective of this seminar is to exchange and promote good practices in designing and implementing innovative teaching approaches such as Gamification, Technology Enhanced Learning, Creative Learning, Evolving Learning Technologies etc. The event will provide opportunities for peer learning, creating synergies between different projects funded by Erasmus+, disseminating project results and developing future projects.

Expected results: The event will allow participants to share their best practices and gain increased awareness of innovative teaching and learning methods and tools that they can integrate into their own teaching practices. They will also have the opportunity to network with similar organisations with the aim of developing future projects related to emerging practices.
