### TCA DESCRIPTION

<b>Themes and goals:</b>	The TCA aims to explore effective practices in STEM education and assist STEM educators in improving their practice through tools, resources, and innovative approaches. Through the plenary sessions and workshops the event will aim at empowering STEM educators to integrate STEM across the curriculum through strategic action planning. The participants will be able to exchange ideas, insights on the situation, challenges, and accomplishments in other countries. Furthermore, the event will provide the opportunity for participants to network and create international projects within STEM field and thus build the capacity of educators as STEM leaders. Target group: teachers of STEM subjects from primary and secondary schools, school leaders, professional associates (pedagogues, psychologists, etc.), representatives of regional school authorities and education policy makers.
<b>Expected results:</b>	At the end of the seminar, the participants will be: -be familiar with and know how use of innovative methodologies in science education -be able to integrate STEM across the curriculum through strategic action planning. -be able share insights and best practices in science education with their colleagues -establish international contacts -develop project idea within STEM field -be motivated to apply knowledge gained in their everyday practice, collaborate with international partners and engage in Erasmus+ projects
<b>Additional information:</b>	We are open to cooperation with other NAs wishing to send their participants. We are currently working on agreeing with speakers- workshop facilitators

### PARTNERS AND PARTICIPANTS

<b>Organiser NA:</b>	RS01 - Foundation Tempus
